
Spring 2009 BioHaven Calendar

Location: The Anlyan Center Auditorium, Yale Medical School

March 5, 2009

Carigent Therapeutics

3:30 P.M. Registration 4 P.M. Seminar
5 P.M. Networking, Refreshments & Wine Bar

Carigent Therapeutics' technology, exclusively licensed from Yale and Cornell Universities, enables for high density surface modification of nanoparticles as well as high density loading of oligonucleotides. Carigent is leveraging this unique technology to improve and deliver challenging therapeutics such as RNAi and therapeutic vaccines.

Tarek Fahmy, Ph.D., *Co-Founder and Assistant Professor of BioMedical Engineering, Yale University*

Seth Feuerstein, M.D., J.D., *Co-Founder and President*

W. Mark Saltzman, Ph.D., *Co-Founder and Chair, Department of Biomedical Engineering and Goizueta Foundation Professor of Chemical and Biomedical Engineering, Yale University*

March 25, 2009

CellDesign

3:30 P.M. Registration 4 P.M. Seminar
5 P.M. Networking, Refreshments & Wine Bar

CellDesign develops customized, stem cell-derived model systems for high-throughput lifescience research. The company is Connecticut's first and only commercial enterprise entirely dedicated to stem cell technology.

John Hambor, Ph.D.,
Chief Executive Officer, CellDesign

Linda Powers
Co-Founder and Managing Director, Toucan Capital, Inc.

CaraTherapeutics

3:30 P.M. Registration 4 P.M. Seminar
5 P.M. Networking, Refreshments & Wine Bar

Cara Therapeutics is an emerging biotechnology company focused on developing novel therapeutics to treat human diseases associated with pain and inflammation. Cara Therapeutics' most advanced compound, CR845, has entered clinical testing for acute pain. This best-in-class compound possesses unique analgesic and anti-inflammatory activities appropriate for multiple therapeutic applications.

Derek Chalmers, Ph.D., *President, CEO and Director CaraTherapeutics*

May 6, 2009

Affomix

3:30 P.M. Registration 4 P.M. Seminar
5 P.M. Networking, Refreshments & Wine Bar

Affomix Corporation has developed technology for generating high affinity, specific, all-human monoclonal antibodies against most proteins in the proteome. Such antibodies would have diagnostic and therapeutic utility; the Company's initial focus is on a novel approach for simultaneous measurement of levels of literally thousands of different proteins over a broad dynamic range.

Michael Sherman, *President*

Michael Weiner, *Vice President, Molecular Sciences*

President and CEO, Achillion Pharmaceuticals Inc.

Tom Wood, *Partner, Elm Street Ventures & Founding CEO, Applied Spine Technologies*

Ron Lennox, D. Phil., *Partner, CHL Medical Partners*

The Yale BioHaven Entrepreneurship Series features presentations designed to showcase regionally developed life science technologies that have progressed along the path to commercialization. Speakers at the BioHaven events represent both the scientific and business side of the enterprises.

The programs focus on key success factors of each company, scientific or technological advantage, business model, and lessons learned in starting and developing the business. The series also provides social networking opportunities for scientists/researchers in the Yale community.

Registration is free, but please RSVP in advance.

Directions to the Anlyan Center for Medical Research & Education

Congress Avenue, New Haven, CT 06510

From I-95 North or South

Exit 47 to Route 34 west to Exit 2. Turn left onto College Street. Follow College until it merges with Congress Avenue. Cross Howard Avenue and enter the Howard Avenue Parking Garage on your right.

From I-91 South

Exit 1 to Route 34 west to Exit 2. Turn left onto College Street. Follow College until it merges with Congress Avenue. Cross Howard Avenue and enter the Howard Avenue Parking on your right.

Wilbur Cross Parkway (Rte. 15) traveling south

Exit 59 immediately after tunnel. Right at end of ramp. Merge left onto Whalley Avenue at light. Stay on Whalley until you see signs for Yale-New Haven at Park Street. Turn right onto Park and follow it until it merges with Howard Avenue. Once on Howard, go through one more light and the Yale Physicians' Building will be on your right. The Howard Avenue Parking Garage is adjacent to the building.

Merritt Parkway (Rte. 15) traveling north

Exit 57 to Route 34 east into New Haven. Right onto Ella T. Grasso Boulevard (Rte. 10) and left onto South Frontage Road. Follow hospital and Rte. 34 signs. At Howard Avenue, turn right. The Yale Physicians' Building is on your right at 800 Howard Avenue. The Howard Avenue Parking Garage is adjacent to the building.

Route 1 (Boston Post Road) traveling east

After crossing Ella T. Grasso Boulevard (Rte. 10), turn left onto Davenport Avenue. At Howard Avenue, turn right. Yale Physicians' Building is on your right at the corner of Howard and Davenport. The Howard Avenue Parking Garage is adjacent to the building.

Parking

Howard Avenue Garage

790 Howard Ave., next to the Yale Physicians Building. The garage is open 6 a.m. to 9 p.m. Rates: \$2 per hour.

From West, enter garage entrance from Howard Avenue, just beyond the YPB entrance.

From East and I-91 or I-95, enter garage from Congress Avenue, just beyond the intersection of Howard Avenue and Congress Avenue.

Air Rights Garage

Open 24 hours a day and located between North and South Frontage roads, straddling York St. Hourly, half-day, daily and monthly rates are available. The New Haven Parking Authority, (203) 946-8936, can provide current rate information. Special parking spaces for disabled visitors are located next to the elevators on each parking level. The garage is monitored by Yale-New Haven Hospital Security Services. A covered pedestrian bridge connects the second floor of the garage to the 20 York Street entrance of the Yale-New Haven Hospital.
